

Title of the activity : Educational Movie Night

For whom: any

Duration: 120 min + 30 min for debate

Number of participants: any depends on the capacity of room

Place: inside

Characteristics:

- educative

Type of activity: both reflective and interactive

Educational interest:

- raising awareness regarding worldwide topics: environment protection, economic issues, social inclusion, inequalities, culture fields, etc.

Materials:

- documentary movie, video projector, laptop, cables, speakers, snacks & drinks

Goal of the Activity:

- enrichment
- awareness about worldwide realities
- get in contact with different perspectives
- sustain your opinion in a group
- promotes healthy habits and attitudes

Method:

Choose one educational movie, maybe related with an actual phenomenon going on in the daily life. After that, you need to announce the projection of the movie with at least 2 days before.

In the night of the event prepare all the logistic aspects (make sure that you have the movie and check if all the logistical tools are functioning).

Prepare the room in a cozy way and wait for your guests.

Once the group is comfortable seated, you can shortly present the topic of the movie and some highlights to focus on. Now you can enjoy the movie and the snacks.

After the movie is over you can moderate a conversation/debate on the important aspects of the movie.

Reflection and Evaluation

Debriefing:

What you should focus on during the debate:

- * Feelings
- * Perspectives
- * Different Scenarios
- * Link between the story line and reality
- * Things that you can change to improve the presented situation
