### Goal : Expressing opinions of social problems

#### Method :

1. You should prepare working place – we recommend you a wall outside, but you can use also textile inside (attention to ventilation!).
2. You can make a presentation about history of graffiti. The important is how use this kind art at the moment. We show them photos graffiti with some opinion (the best with opinion of social problems) – you can use graffiti from Banksy.
3. We're sure that during the presentation the discusses become. If not you can continue after presentation. Indicative questions: What do you think about social problems? Does it exist some your idea which you want to say to world? Is it anything what you hate/don't like on the world?
4. Also you should use the prevention of illegal graffiti – where they can make graffiti; what's the criminal case,...
5. Now we can start... Participants take paper and pencil. They make a sketch, it can be more than one. For this activity the sketch should be about social problems. Than they can start with the technique on a wall. Participants make also sketch on the wall and than to fill colours and to make details.
6. In the end, everybody describe their pictures and others can tell what they think about that.
