

Title of the activity : Encaustic with action

For who : 15+

Duration : 40 – 60 min

Number of players : 1 and more

Place : inside

Characteristic :

- artetherapy with encaustic
- social problems

Type of game : social problems

Educational interest :

- development opinions of social problems
- expressing emotion and opinion

Materials :

- encaustic tools (paper, iron, pen, colors)
- cards with topics of social problems

Goal : Development opinions of social problems

Method :

1. You should prepare things for encaustic: place for working, papers, irons, pens, colours. And also you prepare cards with topics of social problems. We used these kind problems: racism, drugs, migration, terrorism, environment, criminality, poverty.
2. Before this kind action you can use brainstorming about social problems and short discuss about that.
3. Each participant chooses one card and then participant can start with drawing. It's depend of them how they want make expression of the social problem. The drawing is about expression, emotion,... – it's abstract picture.
4. When they finish, they can describe their picture. As leader you can use indicative questions: Why did you choose these colours? What do you feel from your picture?
5. After the description they have next task – they should draw one picture before this picture and one picture after this picture. It's really up of them; it can be absolutely abstract or concrete. It's about participant development – somebody needs abstract, somebody needs concrete...
6. In the end, everybody describe their pictures and others can tell what they think about that.
