### Goal :

To raise awareness in the local community about different problematic topics, to interact with local citizens and to involve them in dialogue.

### Method :

The participants will chose a topic (debatable, interesting, problematic) and a method (photography, painting, film, etc). Each participant will prepare themselves as an exponent in a gallery. It is important to choose a suitable public place for the exhibition, so that many people can see the exposed people but also to allow interaction. Each participant will interact with the locals and will actively present the topic, the ideas, the elements what he or she is representing in the gallery.
